

Vados

Son las zonas que modifican su estructura mediante planos inclinados que comunican niveles diferentes. Se dividen en vados para vehículos y vados peatonales.

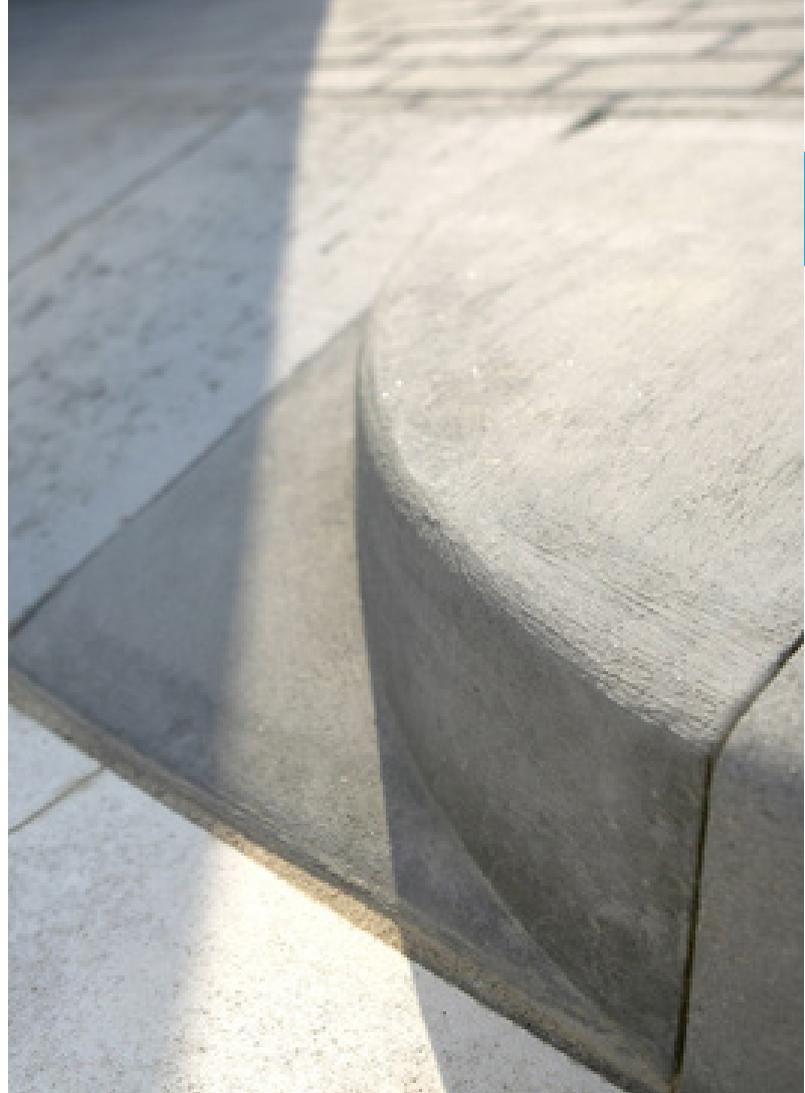

breinco

VADOS DE VEHÍCULOS

Se definen como zonas de acera que modifican su estructura para posibilitar la entrada y salida de vehículos desde la línea de fachada hasta la calzada.

VADOS PEATONALES

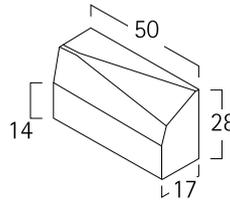

Se denominan vados peatonales a las modificaciones de las zonas de un itinerario peatonal mediante planos inclinados que comunican niveles diferentes y que facilitan a los peatones el cruce de las calzadas destinadas a la circulación de vehículos.
